

TEACH FROM anywhere IN THE CLASSROOM

Using the wireless* InterWrite™ SchoolPad, a projected image can be controlled by a teacher or student from anywhere in the classroom.

InterWrite™ SchoolPad

Imagine being able to be in two places at once! You can, with the InterWrite™ SchoolPad. For years, GTCO CalComp has been providing teachers the freedom to engage their students from anywhere in the classroom with the InterWrite™ SchoolPad—the first Bluetooth® wireless pad for the interactive classroom. You can project computer images on the InterWrite™ SchoolBoard or any surface and use the SchoolPad to write notes, highlight key points or control any application on your computer. You can easily circulate around the room and focus attention on individual students while the rest of the class is focused on the lesson at the front of the room.

Share up to 7 SchoolPads in the class so groups of students can collaborate on assignments and projects.

* with Bluetooth® technology

* Models 1060B and 1077B incorporate Bluetooth® technology for a wireless connection to your computer.

** Available as either a PCMCIA card or as a USB connection, the SchoolPad Bluetooth® hub is an antenna that allows the wireless SchoolPad 400 to communicate with the PC. A SchoolPad Hub is required with the first purchase of a SchoolPad 400. If additional SchoolPad 400s are purchased and connected to the same PC, additional hubs are not required. One hub can support up to 7 SchoolPads.

*** The SchoolPad 100 is a corded version of the SchoolPad and can be connected to the PC via RS-232 or Universal Serial Bus (USB).

GTCO CalComp
PERIPHERALS

TEACH **in front** OF YOUR CLASS

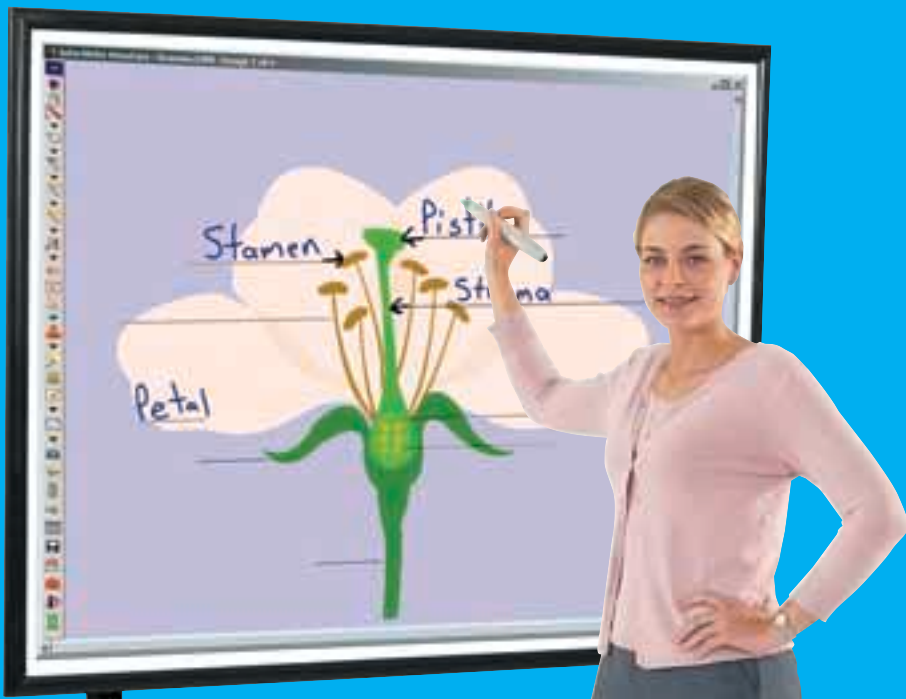

Middle School science teacher controls images on the InterWrite™ SchoolBoard in front of class. Students solve problems interactively.

InterWrite™ SchoolBoard

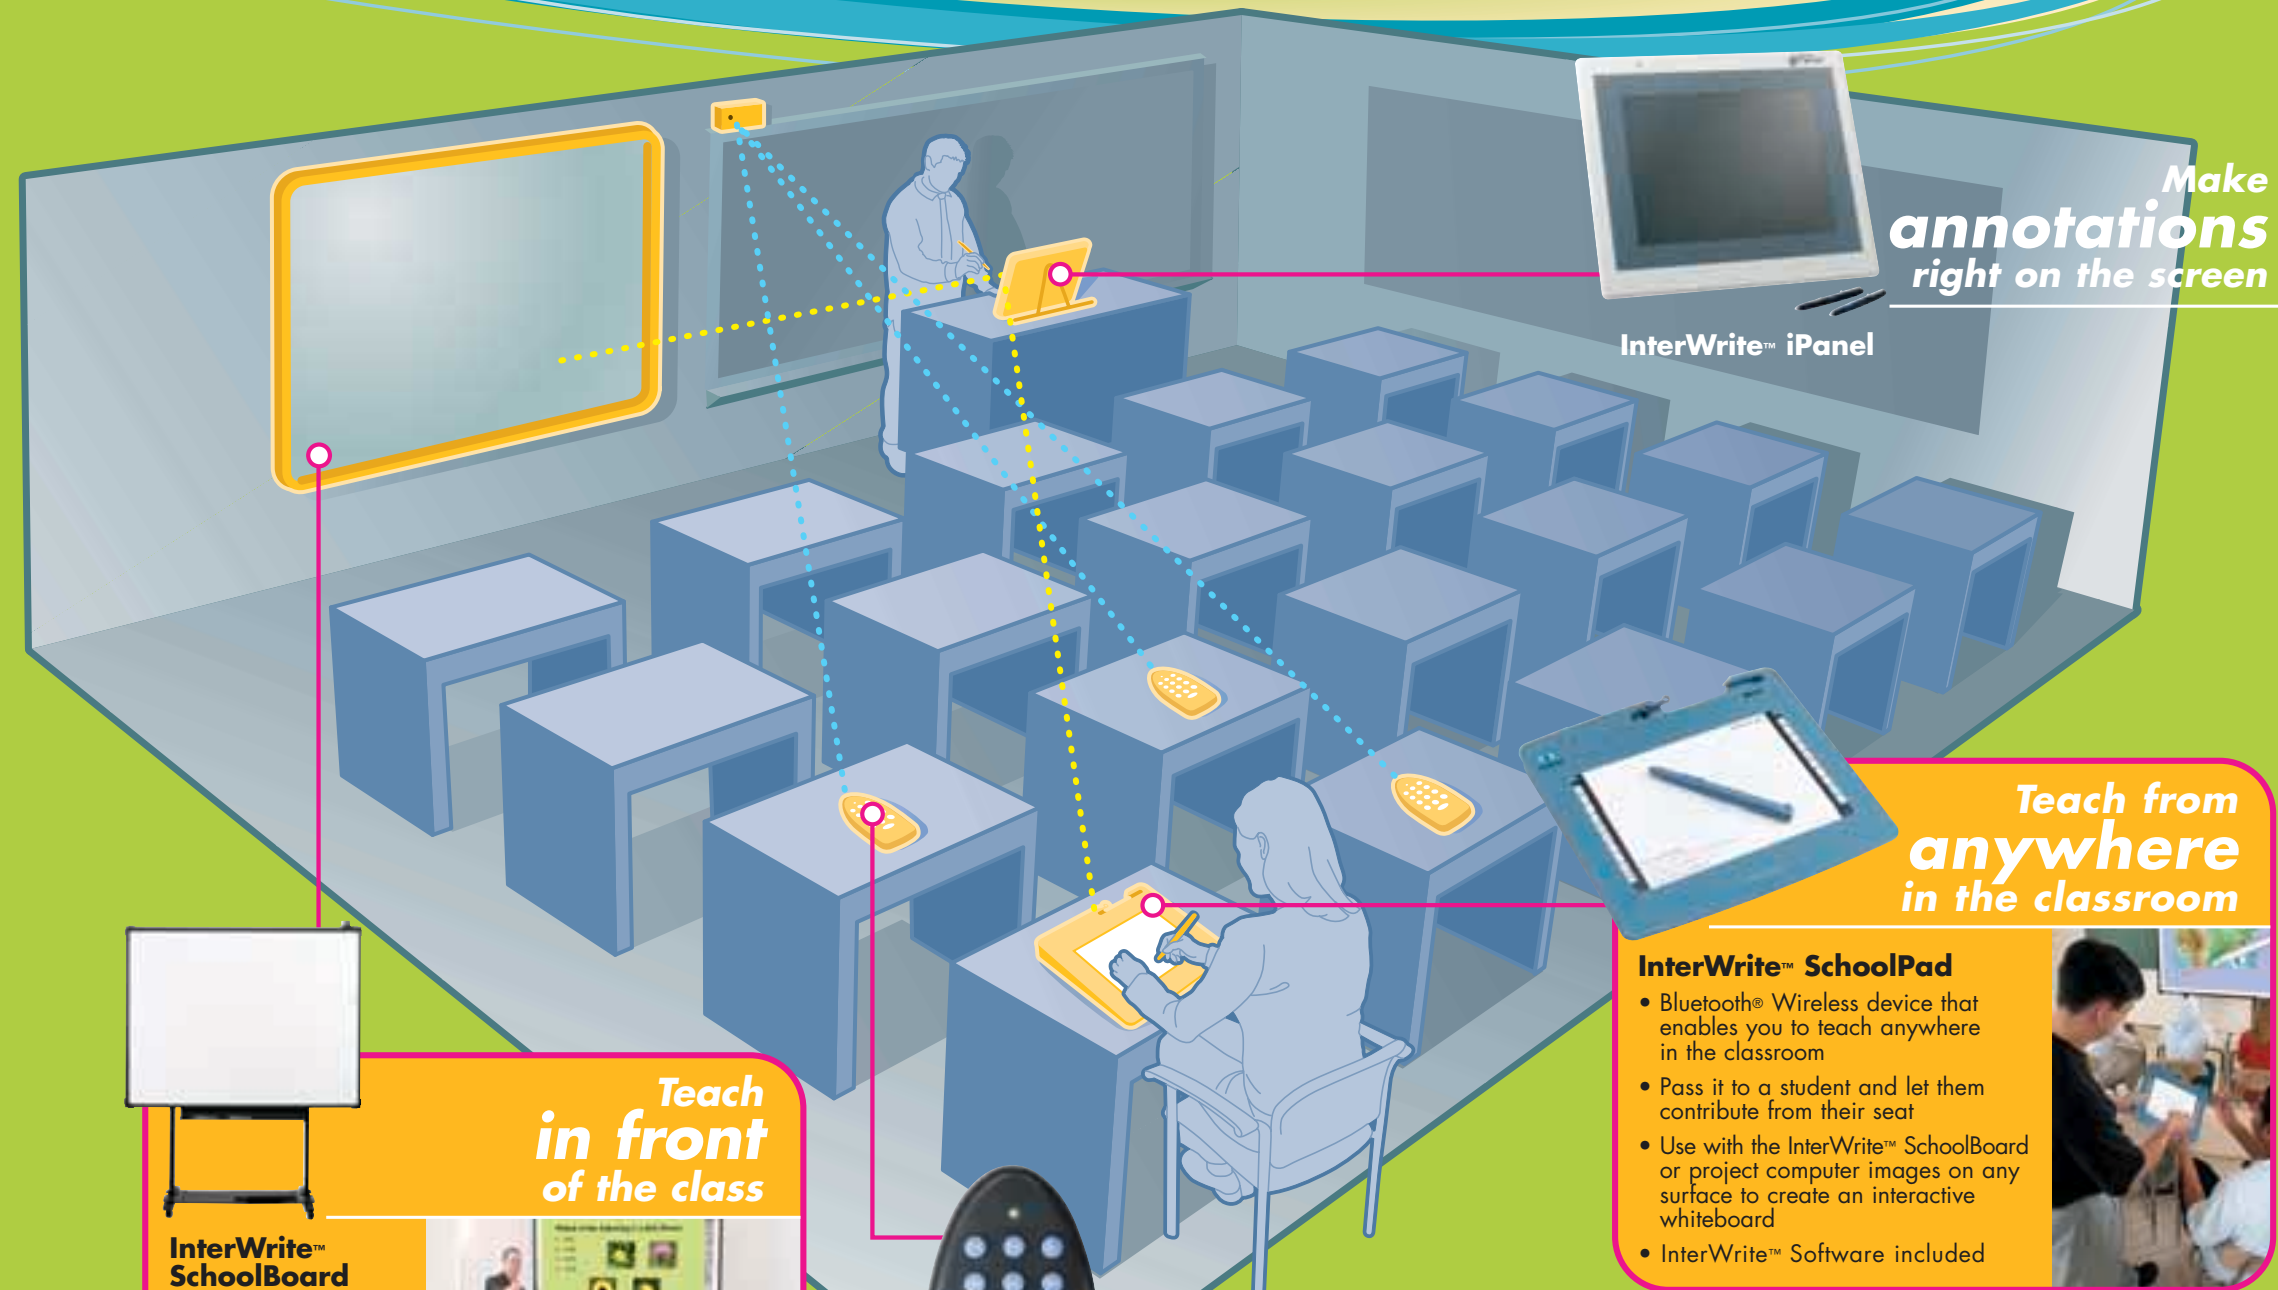

The InterWrite™ SchoolBoard is a durable, easy-to-use electronic whiteboard. It inspires students by turning classroom lessons into interactive experiences. Designed to engage all types of learners, the InterWrite™ SchoolBoard provides a high level of interactivity with little or no training. Whether you're exploring an Amazon Jungle website or running your favorite science program, you can keep students focused on the lesson in the front of them.

Start your lesson...now! With the wireless SchoolBoard, using Bluetooth™ technology, classrooms can be wire-free and requires little set-up time.

The SchoolBoard is a sophisticated electronic whiteboard designed with today's classroom in mind: rigid construction and no moving parts.

Make **annotations** right on the screen

InterWrite™ iPadel

Teach from **anywhere** in the classroom

Teach **in front** of the class

Instant **assessment** at your fingertips

- InterWrite™ SchoolBoard**
- Durable electronic whiteboard
 - Rigid construction, no moving parts
 - Designed to engage all types of learners
 - InterWrite™ Software included

InterWrite™ SchoolPad

- Bluetooth® Wireless device that enables you to teach anywhere in the classroom
- Pass it to a student and let them contribute from their seat
- Use with the InterWrite™ SchoolBoard or project computer images on any surface to create an interactive whiteboard
- InterWrite™ Software included

InterWrite™ Interactive Classroom

Using your computer and projector, the InterWrite™ product family lets you turn your classroom into a dynamic learning environment. GTCO CalComp's InterWrite™ School Suite, which includes the SchoolBoard, SchoolPad, and InterWrite™ Software, offers a collection of powerful educational tools that allow you to engage your students, encourage active participation, and enhance the learning experience. For more information on the InterWrite™ iPadel, and InterWrite™ PRS, please visit www.gtcocalcomp.com. *The InterWrite™ Interactive Classroom—Turning Lessons into Experiences.*

Easy to use pen and highlighter tools, with multi-color digital ink options, allow you to annotate over your presentation, a website or your favorite software application.

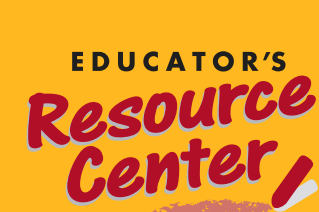

InterWrite™ Software

The InterWrite™ SchoolBoard, SchoolPad and iPadel each come with InterWrite™ Software. The unique technology of InterWrite™ allows teachers and students to easily interact with a projected image from any computer application. InterWrite™ Software allows you to:

- Control your computer applications with pens, instead of a mouse
- Write over a projected image in a natural style using the pens
- Import any graphic image you'd like to project – like a map, a musical staff or even a website.
- "Type" text over a projected image with virtual keyboard
- Save annotations directly in PowerPoint®, Word or Excel in office mode.
- Customize your toolbar so you can easily access your favorite tools.

Plus, InterWrite™ Software lets teachers extend the learning experience with the ability to save, print and e-mail notations and files.
