

3M™ Digital Board

For educators and other business professionals who must make the right impression every time, the 3M™ Digital Board helps deliver information in an engaging, understandable and memorable presentation format.

Features:

- 65" or 78" diagonal screen size.
- Designed for long-term durability and minimum glare with a porcelain enamel surface over steel.
- Can be used as a dry-erase surface with any markers and easily cleaned.
- Digital presentation pen is an ergonomically comfortable and natural writing tool.
- Electronically capture notes to save and distribute instantly.
- Connect to a computer with easy-to-use USB connection.
- Access the internet or other applications directly from the board; navigate computer desktop using the presentation pen that performs like a mouse.
- Use 3M Digital Media System, 3M Digital Projector or any other digital projector brand as a display device.
- PC and Macintosh® compatible.

Interactive Toolbar:

interactive wheel gives access to save and/or highlight functions, and has special mouse features that allow easy point and click. No need to go back to your computer
