

Acer S 5200

# Networked ultra-short-throw projection

The Acer S5200 projects clear images up to 81 inches diagonal even if the projector is positioned as close as one meter from the screen. This DLP® 3D certified projector presents seamless 3D visuals, and features advanced HDMI connectivity to digital devices. Crestron network controls offer remote monitoring, control and reporting systems via LAN, and Acer EcoProjection technology uses just the right amount of power.
